

CHING-YUN YU

NVIDIA-Certified AI Infrastructure & Operations Associate

✉ peteryu54089@gmail.com 📞 281-302-8125 📍 San Jose, CA 🌐 chingyunyu.github.io

EXPERIENCE

Expert Systems Software Engineer

Ingrasys Technology USA, Inc.

📅 May 2026 – Ongoing 📍 San Jose, CA

- Built backend diagnostic services with rule-based logic and ML models, accelerating root cause identification for complex system failures
- Developed log parsing and data pipelines for GPU server diagnostics, turning manual debugging knowledge into reusable automated checks
- Integrated AI-driven analysis modules with factory validation systems, streamlining deployment workflows and improving test consistency

System Engineer

AMAX Engineering Corporation

📅 Jul 2024 – May 2026 📍 Fremont, CA

- Conducted functionality testing on 100+ liquid-cooled compute cabinets, supporting the on-time delivery of HPC infrastructure
- Developed automation scripts to streamline system deployment and log collection, saving over 40% of manual setup time per rack
- Diagnosed recurring hardware/software issues on compute nodes, reducing retesting cycles through targeted root cause fixes

Graduate Research Assistant

University of Missouri–Columbia

📅 Jun 2022 – May 2023, Jan – May 2024 📍 Columbia, MO

- Created an AR learning system with motion capture and eye-tracking, leading to extended sponsorship from the National Science Foundation
- Developed machine learning workflows to analyze 10K+ EMA data points, enabling reproducible results through customized pipelines
- Built predictive models for cannabis use based on behavioral features, which hold unique promise for data-driven intervention strategies

PUBLICATIONS

📄 Journal Articles

- C.-Y. Yu et al., “Predicting quantity of cannabis smoked in daily life: An exploratory study using machine learning,” *Drug and Alcohol Dependence*, vol. 252, p. 110 964, Nov. 2023. DOI: 10.1016/j.drugalcdep.2023.110964.

👥 Conference Papers

- C.-Y. Yu et al., “Developing an augmented reality-based interactive learning system with real-time location and motion tracking,” in *International Conference on HCI*, Jun. 2023, pp. 227–238. DOI: 10.1007/978-3-031-34550-0_16.
- C.-Y. Yu, Y. Shang, and T. J. Trull, “Reproducible workflows for exploring and modeling ema data,” in *IEEE 8th International Conference on Collaboration and Internet Computing (CIC)*, Dec. 2022, pp. 117–124. DOI: 10.1109/cic56439.2022.00026.

EDUCATION

M.S. in Computer Science

University of Missouri–Columbia

📅 Jan 2022 – May 2024

B.S. in Computer Science

& Information Engineering

National Taipei University of Technology

📅 Sep 2016 – Jun 2020

CERTIFICATIONS

🏆 **Nvidia: AI Infrastructure & Operations**

INTERNSHIPS

Cloud Division Intern

Galaxy Software Services

📅 Jul 2018 – Jun 2019 📍 Taipei, TW

- Participated in full-stack development efforts to build a cloud-based CRM system
- Maintained robust database schemas to ensure data integrity and optimal performance
- Worked in a Scrum environment that included task planning, daily standups, code reviews, and unit testing
