EXPERIENCE

System Engineer

AMAX Engineering

📅 Jul 2024 – Ongoing 📍 Fremont, CA

- Conducted functionality testing on 100+ rack-scale liquid cooling systems, supporting the on-time delivery of HPC infrastructure
- Developed automation scripts to streamline system deployment and log collection, saving over 40% of manual setup time per rack
- Diagnosed recurring hardware/software issues on compute nodes, reducing retesting cycles through targeted root cause fixes

QA Test Contractor

Pentium Network

📅 Jul 2020 – Nov 2020 📍 Taipei, TW

- Designed and executed comprehensive test cases and test scenarios
- Configured cloud resources such as DNS, CDN, and instances on various cloud platforms

Backend Engineer

Chairsla Technology

📅 Jul 2019 – Jan 2020 📍 Taipei, TW

- Performed application deployment and database restoration on AWS
- Built backend services for chatbots, focusing on usability and scalability

Cloud Division Intern

Galaxy Software Services

📅 Jul 2018 – Jun 2019 📍 Taipei, TW

- Participated in full-stack development efforts to build a CRM system
- Worked in a Scrum environment that included task planning, daily standups, code reviews, and unit testing

EDUCATION

M.S. in Computer Science

University of Missouri—Columbia

📅 Jan 2022 – May 2024

B.S. in Computer Science

& Information Engineering

National Taipei University of Technology

📅 Sep 2016 – Jun 2020

RESEARCH

Graduate Research Assistant

University of Missouri—Columbia

📅 2022, 2023, 2024 📍 Columbia, MO

- Created an AR learning system with motion capture and eye-tracking, leading to extended sponsorship from National Science Foundation
- Developed machine learning workflows to analyze 10K+ EMA data points, enabling reproducible results through customized pipelines
- Built predictive models for cannabis use based on behavioral features, which hold unique promise for data-driven intervention strategies
